Eagle Premier Checking Account

Your interest rate and annual percentage yield may change. At our discretion, we may change the interest rate on your account daily. Interest begins to accrue on the business day you deposit non-cash items (for example, checks).

Interest is compounded on a monthly basis. Interest will be credited to your Eagle Premier account on the last day of the current statement cycle. Your interest earned during the monthly eligibility cycle may be swept to your Eagle Premier Saver account. If you close your account before interest is credited, you will not receive the accrued interest.

The average daily balance method is used to calculate interest on your account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period. The period we use is the Statement cycle.

*Consumer Accounts Only - Not available to Not-for-profit, Charitable, Tax Exempt Accounts, Commercial or Business Checking accounts..

Eagle Premier Saver Account

Your interest rate and annual percentage yield may change. At our discretion, we may change the interest rate on your account daily. Interest begins to accrue on the business day you deposit non-cash items (for example, checks).

Interest is compounded on a monthly basis. Interest will be credited to your Eagle Premier Saver account on the last day of each cycle period. If you close your account before interest is credited, you will not receive the accrued interest. Interest less than \$1.00 does not pay.

*Interest in Eagle Premier Checking does not compound because it may be automatically transferred to the Eagle Premier Saver Account. Note: Automatic transfer may cause an overdraft to your Eagle Premier Checking account if the account's balance is less than the transferred amount when transfer occurs.

The average daily balance method is used to calculate interest on your account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.

*Consumer Accounts Only - Not available to Not-for-profit, Charitable, Tax Exempt Accounts, Commercial or Business Checking accounts..

Eagle Saver Account

Your interest rate and annual percentage yield may change. At our discretion, we may change the interest rate on your account daily. Interest begins to accrue on the business day you deposit non-cash items (for example, checks).

Interest is compounded on a monthly basis. Interest will be credited to your Eagle Saver account on the last day of each quarterly cycle period. If you close your account before interest is credited, you will not receive the accrued interest. Interest less than \$1.00 does not pay.

*Eligibility earned from Eagle Checking Account does not compound because it may be automatically transferred to the Eagle Saver Account. Note: Automatic transfer may cause an overdraft to your Eagle Checking account if the account's balance is less than the transferred amount when transfer occurs.

The average daily balance method is used to calculate interest on your account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.

Your interest rate and annual percentage yield may change. At our discretion, we may change the interest rate on your account daily. Interest begins to accrue on the business day you deposit non-cash items (for example, checks).

Interest is compounded monthly and credited on the last day of each monthly cycle. If you close your account before interest is credited, you will not receive the accrued interest.

The average daily balance method is used to calculate interest on your account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.

Not available for for-profit corporations, partnerships or associations.

Savings Accounts

Your interest rate and annual percentage yield may change. At our discretion, we may change the interest rate on your account daily. Interest begins to accrue on the business day you deposit non-cash items (for example, checks).

Interest is compounded quarterly and credited on the last day of each quarterly cycle period. If you close your account before interest is credited, you will not receive the accrued interest. Interest less than \$1.00 does not pay.

The average daily balance method is used to calculate interest on your account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.

Christmas Savings Account

The same account terms as a regular savings account except as follows:

Deposits can be made at any time but must be made at least monthly by transfer from another account. Withdrawals are not allowed except on November 1st of each year by Cashiers Check and will be mailed by the bank. Accrued interest will be paid each November.

Money Market Accounts

Your interest rate and annual percentage yield may change. At our discretion, we may change the interest rate on your account daily. Interest begins to accrue on the business day you deposit non-cash items (for example, checks).

Interest is compounded monthly and credited on the last day of each monthly cycle. If you close your account before interest is credited, you will not receive the accrued interest.

The average daily balance method is used to calculate interest on your account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.

Certificates of Deposits and IRA Accounts

The interest rate for your account will be paid until the maturity date of your certificate. Interest is compounded and paid semi-annually or at maturity, whichever occurs first. Interest begins to accrue on the business day you deposit non-cash items (for example, checks).

The account will automatically renew at maturity. You will have ten (10) calendar days from the maturity date to withdraw your funds without being charged a penalty.

Withdrawals are not allowed from this account.

The daily balance method is used to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.

If any of the deposit is withdrawn before the maturity date, a penalty as shown below will be imposed:

Term	Penalty
91 days CD	3 months' interest
182 days CD	3 months' interest
12 months CD	3 months' interest
18 months CD	6 months' interest
30 months CD	12 months' interest
48 months CD	12 months' interest
60 months CD	12 months' interest

Jump Rate Certificates

You may change the interest rate on your account once during the term of your certificate to the current interest rate offered by us.
