## WHAT IS ONLINE BANKING?

Fnbofks.com is our complimentary 24 hour Online Banking Service. That means you can do your banking from your computer or any web enabled device anytime, anywhere you choose.

- ◆ 24 hour access to checking, savings, loans and CDs, including account balances, check images and history.
- ◆ Quickly move money between your accounts 24/7, or set up recurring transfers that take place automatically.

- ◆ Multiple layers of security including password protection, Internet firewalls, and 128 bit encryption, help keep your information safe and secure.

- ◆ See images of your cancelled checks and review 24 months of account statements.

- ◆ Download statements to most versions of Quicken, Microsoft Money, QuickBooks or Excel. (Contact FNB of KS for instructions)

## ESTATEMENTS

First National Bank of Kansas eStatements are available to all online Banking customers. Receive an email when your statement is ready and then view your statement securely through First National Bank's Online Banking site.

- ◆ **Green.** eStatements are good for the environment. They literally save tons of paper. Choosing eStatements is something easy you can do that is Earth-friendly.
- ◆ **Fast.** You get your statement sooner, because online delivery eliminates delays sometimes found with postal mail delivery.
- ◆ **Secure.** Identity Theft experts actually recommend electronic statements. Why? Because most identity theft occurs through the mail or improperly discarded paper documents containing sensitive information. eStatements simply protect your information better than paper statements.
- ◆ **Simple.** eStatements eliminate the clutter of paper statements and allow you to store and retrieve past statements right on your hard drive.

*To enroll simply log into Online Banking, and enroll for eStatements under the options tab.*

## CONDUCTING YOUR TRANSACTIONS ONLINE

In order to help ensure the security of your online transactions, we want you to know that:

- ◆ We will never email, call or otherwise ask you for your user name, password or other electronic banking credentials.
- ◆ You can help protect yourself by implementing alternative risk control processes like:
  - ◇ Making sure you choose an adequate user name and password that, at a minimum, mixes in small case letters, upper case letters and numbers
  - ◇ Periodically changing your password (e.g., at least every 90 days)
  - ◇ Safeguarding your user name and password information
  - ◇ Making sure you have a firewall in place when conducting your financial transactions
  - ◇ Logging off the system when you're done conducting business (don't just close the page or "X" out of the system)
  - ◇ Monitoring your account activity on a regular basis
