## Security

### Guidelines to help prevent fraud & identity theft:

*Do not give out financial information* such as checking and debit card numbers, or your social security number, unless you know the person or organization you are dealing with, even someone claiming to be from your bank.

*Report lost or stolen checks or ATM cards immediately.* The bank will block payment on check numbers and hot card your ATM card involved. You can greatly reduce fraudulent transactions by reporting these lost items quickly.

*Do not fall prey to "Phishing."* Never respond to an e-mail requesting you to provide card, PIN, account or personal information via the internet.

*Notify the bank of suspicious phone inquiries* such as those asking for account information to "verify a statement" or "award a prize."

*Store your information in a safe place.* Shred old credit card and ATM receipts, old account statements and unused credit card offers before you discard them.

*Watch you account information and billing statements.* Know your billing cycles and review monthly statements carefully. Make sure that all charges, drafts or withdrawals were authorized. If anything looks suspicious, promptly contact the bank.
